

Steel Train Matt Kemp, [REDACTED], kempmusik.com

V1

So fair and foul a day, i have not seen
harmonies in the distance, sung by the green
the night is long that never finds the day
Its pretty late to start bleeding, here i will stay

(CHorus, no lyrics)

V2

Breath it in, forget the pain
sleep to dream, my mind is rain
steel train a-coming, on thru my vein
take me up to a higher plane

CH

One more smoke and then i'm going home
one more smoke and then i'm all alone

V3

You have shown me a world surreal
I can choose to be lonely, or take the devil's deal
my angel is a lover in the bright sunrise
sleepy waters flowing in my surmise
steel train a-coming on thru the hill
i'm coming down but i'm standing still

CH

One more smoke in days of evermore
one more smoke and darkness comes ashore

CH (double)

One more smoke in days of evermore
one more smoke and darkness comes ashore
one more smoke and then i'm all alone
One more smoke and then i'm going..... home
